

GAEATE

CE RoHS 

【Maximum Safety】 : Built with a Heat-Resistant Anti-Slip Grip Handle. Features British STRIX thermostat technology, advanced auto shut-off and boil-dry protection function ensure 100% electrical safety. All material is BPA-free.

【Blue LED Indicator】 : Equipped with bright LED lights to indicate when the kettle is heating. Simple design looks lovely on your counter while the blue LED light is on, providing you the better visual enjoyment.

【Easy to Use and Clean】 : A wide mouth means both easy cleaning and filling. To remove mineral deposits or rust stains from inside the kettle, combine two tablespoons of baking soda and lemon juice with water, boil for 30 minutes and rinse thoroughly.

【Large Capacity】 : 1.7L large capacity allows the water boiler to serve large family or office daily use from coffee and tea brewing to oatmeal making. Water heats up quickly in 6-7mins, a great choice to replace your microwave, stove or your old kettle.

【Quality Service】 : GAEATE is confident that our kettles are manufactured under strict quality standards to give our customers the best experience.

British Strix Control

Automatically turns off when boiling is done. Boil-dry protection is designed for your safety.

Blue LED Indicator

Equipped with bright LED lights to indicate when the kettle is heating.

Stainless Steel Filter

Water goes through an extra stainless steel filter at the spout.
