

# GAEATE

CE RoHS 

**【2 SPEEDS CONTROL & LED DISPLAY】** : This AMZCHEF slow juicer has flexible 2 speeds control design to extract various fruits and vegetables (including leaf veggies). “SOFT” modes runs from 50 to 60 RPM for soft and juicy fruits and vegetables like watermelon, orange, grape, celery, cucumber.” HARD” modes runs from 100 to 110 RPM for hard fruits like apple, pear, carrot, beets, ginger and kale. Plus an elegant LED display panel, which makes your juicing more convenient and stylish.

**【ANTI-OXIDATION & KEEP FRESH BETTER】** : Slow masticating and small feeding chute design can not only extract more than 90% juice and drier pulp, preserve maximum nutrients from fruits and veggies, but also reduce oxidation rate. Besides, our juice cup has a food grade silicone cover, which can help to reduce the juice oxidation rate effectively. You can just put the fresh juice in the fridge after juicing and the juice freshness will be kept up to 72 hours!

**【SILENT OPERATION & EASY TO CLEAN】** : The motor operates at less than 60db, So it doesn't bother your neighbors and makes you feel comfortable when you juice. One button assemble design allows you to take the juicer apart in seconds. With the provided cleaning brush you can clean the machine easily. All detachable parts are made of high quality Food Grade material and dishwasher-safe.

**【COMPACT & REVERSE FUNCTION】** Size : 13.7x5.9x11.6 In (Weight: 7.7 lbs) Compact design does not occupy much kitchen space and makes it is easy to move and use; Has REVERSE FUNCTION to avoid stuck and helps you to clean.

**【2 PORTABLE BOTTLES INCLUDED】** : Offer 2 travel bottles (500 ML/bottle) in the package, which allows you to take the fresh juice outside for picnic, sports, travel and etc. So you can supplement nutrition at anytime and anywhere. We are confident with the quality of our juicer. Our support team will solve all your problems within 24 hours.
