【Stylish Simplicity】 : Pretty and practical, what' s not to love? The conveniently cordless kettle has a BPA free lightweight stainless-steel body and 360° swivel base. The sleek design makes this kettle both easy to use and easy on the eye.

【China Inspired】 : China have been the pioneers of coloured kettles, inspired by the countryside. Whichever vibrant colour you choose, our kettles are made to last with the quality that you have trusted for generations.

【Functionally Elegant】 : This electric kettle brings a note of elegance and sophistication to any kitchen. The silent boil kettle features a 1.7 litre capacity, with a convenient water viewing window as well as a light indicator during boiling.

【Energy Efficient】 : The Kettle boils water, and fast! The clear water window has markers indicating the water level in the kettle, so you only use what you need. It also features a removable filter to prevent limescale build up.

Strong & Sturdy Kettle

Our stainless-steel kettles are rust resistant, easy to care for and made to last.

The Boston Kettle range has an ergonomic handle for that stays cool. It has a convenient water pouring spout as well as a removable lid for easy refilling and pouring. It also comes with a removable, washable anti-scale filter.

Enhanced Features

With all the essential functions you'd want in a kettle, including boil dry and overheat protection and integrated cord storage in the 360° base. It's an excellent kettle if you're looking for something stylish that doesn't compromise on practicality.

The kettle also comes with a free extra removable filter.

Water Gauge

Not sure how much water is in your kettle? The Boston range comes with a water level indicator so that you can boil just as much as you need.

It is BPA free so that no harsh chemicals come into contact with your water. Also comes with a light indicator during boiling.
